GURUGRAM UNIVERSITY

WHO ARE WE?

We are Gurugram University, a young and vibrant institution established in 2017. Nestled in the heart of Gurugram, Haryana, our campus may be urban, but our vision is global. We foster a dynamic environment where students from all walks of life can learn, grow, and become the future leaders and changemakers of tomorrow.

WHAT IS A HACKATHON?

The term "hackathon" is derived from the combination of the phrases "hack" and "marathon." In its most basic form, a hackathon is a collaborative problem-solving challenge. The goal is to encourage innovation and showcase fresh ideas or solutions.

WHY DO A HACKATHON?

Unleash your innovation at Gurugram University's Hackathon! This exciting event is your chance to collaborate with talented peers, brainstorm creative solutions, and bring your ideas to life in just a few days. Develop valuable technical skills, build a strong portfolio piece, and network with industry professionals – all while pushing your limits and having fun. The Hackathon is the perfect platform to turn your potential into reality.
